Document 1: JP 8-198874 A (Banyu Pharmaceutical Co., Ltd.), 6 August 1996

Claims 1-14

The inventions set forth in claims 1-14 involve an inventive step relative to document 1, cited in the international search report.

Document 1 discloses compounds which have a structure which is partially analogous with FKA-25, and indicates that said compounds can be employed as anti-tumour agents.

However, the structure of the compounds disclosed in document 1 differs in many respects from FKA-25, and document 1 does not mention an action in inhibiting macrophage foam cell formation. Therefore, the inventions in the present application could not be deduced easily by a person skilled in the art from document 1.
